**DETAILED ACTION**

***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/18/2011 has been entered.

2. Claims 1 and 6 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose a liquid supply method supply apparatus comprising a supply section that delivers the supply liquid; and a supply liquid circulation tube formed in a hollow fiber shape that causes the supply liquid to flow from the supply section to the primary fluid circulation tube, when the supply solution is supplied from the supply section to the primary fluid circulation tube via the supply liquid circulation tube, a pressure of the supply liquid in the supply section and a pressure of the primary fluid is always greater than supply fluid pressure in the primary fluid circulation tube; the pressure of the supply liquid is controlled so as to maintain a constant level; the primary fluid is ultrapure water; the supply liquid is an electrolytic aqueous solution; and a supply quantity of the supply liquid can be determined without performing feedback control, in combination with the supply liquid circulation tube made from a material selected from the group consisting of fluorine resin and poly(4-methylpentene-1) based resins..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
